This office action is in response to the amendment filed October 30, 2003. The changes to the claims have been entered. All objections and rejections made in the last office action are withdrawn in view of the amendment. Claims 9-13 are pending.

Allowable Subject Matter

Claims 9-11 remain allowed as set forth in the last office action. Claims 12 and 13 are presently allowed in view of applicant's amendment to overcome the objections made in the last office action. Supplemental to the reasons for allowing claim 9 first set forth in the office action mailed April 23, 2003, it is noted that "nested tubes" conceivably could be construed as reading upon prior art multilayered thin film heater configurations, which bear a basic geometric resemblance to nested tubes. However, it is clear from the present disclosure that applicant intends "nested tubes" to mean distinct entities (e.g., microcapillaries) having self-defined shapes, rather than merely a series of contiguous coatings which happen to conform to the shape of a tube.
